Fein in case of a renewed conflict.

The leaders were seeking to-day for a formula that would make a conference possible while safeguarding their position, but there were some indications that they might decide the correspondence would be best left as it stands.

After Mr. De Valera on Saturday despatched a telegram to Mr. Lloyd George, stating that the Sinn Fein had accepted the Prime Minister's invitation to the Inverner conference, but had merely detailed the position he and his colleagues were maintaining, it was believed the way had been prepared for a continuation of the negotiations with the British Government. Yesterday's note from the Prime Minister, however, made it evident that Mr. Lloyd George was ation that ireland had not renounced her allegiance to the Brilish Crown.

The note of Sept. 12, to a section of which the Prime Minister took exception, was approved by a unanimous vote taken by the Dail Eireann.

When the United States Post Office. on Nov. 6, 1919, desired to rent some upland for storage purposes between 5th and 28th Streets, North River, 15 found that the rental to the city would be 20 cents a square foot for such space, and at this rate Commis-

sioner Hulbert issued a permit to this branch of the United States Government. When the Consolidated Telegraph and Electrical Subway Company re-newed its permit on May 1, 1920, for the rent of space on upland between 51st and 52d Streets it found its rental increased from \$1,200, which

creased to \$1.648.30, apparently at the rate of 20 cents a square foot and an increase of more than 50 per cent. over the previous rent.

But when John A. McCarthy came to renew his permit for his 18,740 feet of upland in rear of bulkheads between piers Nos. 50 and 51. East River, an entirely different condition of affairs seems to have arisen.
At 20 cents a square foot the previous rental of \$2,511 should have jumped to \$3,748 But on referring to

the Dock Department records one finds that on May 1, 1919, these up-lands were leased to John A. Mc-Carthy for a flat rental of \$1,611 per annum, exactly \$1,200 less than what he had paid in previous years and \$2.137 a year less than the permit would have called for on the 20 cents square foot basis.
At the new figure John A. McCarthy

now pays only cight and seventenths of a cent for the rental of city
uplands, though the 20 cent rate had
been fixed not merely for private
corporations, but for the United
States Government and for the State
of New York by Dock Commissioner
Hulbert.
